Summary

AI engineer focused on LLM evaluation and agent tooling. I grade frontier-model output on coding, agent, and domain tasks for AI labs' evaluation programs (via Handshake, Mercor, and Turing), and build the tooling that makes those grades worth trusting, including [juryrig](#), an open-source audit kit for LLM judges. Founder of Alloway LLC: applied ML, fraud and anomaly detection, and decision dashboards. M.S. AI candidate at USF.

Technical Skills

Evaluation: LLM evaluation, LLM-as-judge auditing, rubric & preference evals, agent evals, calibration, grader design
ML / AI: PyTorch, TensorFlow, Scikit-learn, XGBoost, LLMs, AI agents, prompt engineering, NLP, forecasting
Languages: Python, SQL, TypeScript, JavaScript, R, Bash
Data / Infra: Pandas, NumPy, Tableau, Power BI, FastAPI, React, PostgreSQL, Redis, Docker, Git, AWS

Experience

AI Trainer — Software Engineering & Agent Evaluation | *Handshake AI (Contract)* Jun 2026 – Present

- Grade frontier LLM output on multi-turn software-engineering and coding tasks for an AI lab's evaluation program, on a 1–7 rubric for correctness, helpfulness, communication, structure, and collaboration
- Write a rationale for every score; run side-by-side preference evals; review agent-built apps for code quality, UX gaps, and failure modes; high inter-rater agreement after calibration

AI Evaluation Expert — Audit & Accounting | *Mercor (Contract)* Aug 2026 – Present

- Build realistic agent task environments (synthetic bank and audit file sets) and write the prompts, golden responses, and grader rubrics agents are scored against
- Review automated QC on tasks and agent trajectories; write failure and grader analyses by hand; diagnose and fix environment defects through the world-rebuild pipeline

Spreadsheet Automation Expert | *Turing (Contract)* Sep 2026 – Present

- Author the full evaluation asset chain for a Google Sheets automation recipe: skills, user interviews, synthetic context data, metaplans, canvas prompts, golden workbooks, and grading rubrics

Founder & Data Consultant | *Alloway LLC* Jul 2020 – Present

- Ship ML-driven decision tools, anomaly and fraud detection, and reporting dashboards (Tableau, Power BI) for sports, fintech, and operations clients; one engagement cut operational overhead about 40%

Data Science Contractor | *West Virginia University* Dec 2024 – Dec 2025

- Built predictive-modeling prototypes and data science deliverables for cybersecurity and hospitality analytics research

Senior Auditor | *Omniichain (Contract)* Oct 2024 – Dec 2025

- Analyzed on-chain data across Ethereum, Solana, and Polkadot; built AI anomaly detection that cut fraud incidents 30%

Projects & Open Source

[juryrig](#) — Zero-dependency toolkit for auditing LLM-as-judge pipelines: position and verbosity bias, prompt-injection susceptibility, panel agreement, calibration. On PyPI. (*Python*)

[SOLVENT](#) — Self-funding analyst agent that sells research briefs, collects Stripe payments, provisions its own compute under margin guardrails, and reports P&L to a treasury dashboard. (*Python, Stripe, NemoTron*)

[browser-agent-benchmark](#) — Checklist for evaluating agents on the real web: auth, Shadow DOM, passkeys, receipts.

AI Advantage Sports | aiadvantagesports.com — ML picks, Kelly sizing, and closing-line evaluation; built on [nba-edge](#) (PyPI) and [kelly-js](#).

Upstream: [LiteLLM](#) (Docker PID-1 zombie-process fix) | [OpenClaw](#) (bug fixes, published skills on [ClawHub](#))

Education

M.S. Artificial Intelligence — University of South Florida Aug 2026 – Dec 2027 (expected)

B.S. Information Science — University of South Florida | *GPA 3.5, Magna Cum Laude* Aug 2024 – May 2026

Certifications

Professional: AWS Certified Machine Learning – Specialty | Google Cloud Professional Machine Learning Engineer | Databricks Certified Machine Learning Associate | AWS Certified Cloud Practitioner | Oracle Database SQL Certified Associate | Tableau Desktop Certified Professional

Coursework: Deep Learning and MLOps Specializations (DeepLearning.AI) | Blockchain Fundamentals (UC Berkeley)
